

MESSY PLAY IDEAS

Goop

Goop is also known by another name, ooblek, if you want to try looking up recipes

Ingredients and Materials

- About 2 cups of cornflour (cornstarch)
- At least 1 cup of water (more or less water changes the texture of the mix, play around with to)
- *Food colouring if you brave*
- Small tub or large bowl/pan for mixing and playing in
- Spoons, cups, anything for mixing, scooping or pouring

Steps

1. Clear a space that can get messy and is easy to clean up
2. Put the container in this space
3. Add cornflour to the container
4. Add water and food colouring (optional)
5. Mix and play

The mix will dry if left on surfaces and can just be dusted off.

The ratio is about two parts cornflour to one part water if you need a rough estimate quantities.
