# FAST FOUR
PEOPLE, ADAPTABILITY AND CHANGE

The purpose of this Fast Four pack is to bring forward underlying ideas connected to environmental responsibility, rehabilitation and accountability. This pack is designed to help younger learners begin to engage with ideas, such as choice, and adaptability when things change. It also explores connections between living things, their needs and human action.

FAST FOUR

'Fast Four' is quick thinking task that enables you and your child(ren)to generate ideas and discuss them with others.

The task can be used as a warmup before another task or as a reflection after a task or at the end of the day. It could also be a fun mealtime option.

You and your child(ren) select a fast four card from the pile/screen. Your child(ren)can choose to do the task and/or record ideas in way that makes sense to them. It can also be done in pairs or as a small group. Your child(ren)need to discuss and play a part in the recording of ideas generated.

It is up to the family or group to decide if they would like your child(ren) to share or display their ideas for other family members via digital communities.

It is worthwhile walking around and listening to ideas being generated as they can provide a quick glimpse into thinking, misconceptions, and connections being made as a result of the the focus of the fast four topics.

BeConWiz's commitment to equitable and ethical practices

BeConWiz, will be referred to as BCW in this document.

BCW will now use 'they – themself' as a singular, gender-neutral pronoun in all material and resources generated. Just as the use of 'he – man' disappeared women's voice and identity, use of the binary 'she – he' and related pronouns has disappeared and rendered voiceless marginalised groups that do not identify with the 'he –she' pronouns. Until some wider grammatical agreement has been reached about what pronouns will be used to embrace the diversity of gender experience, in text we will use 'they – themself' in our materials. Given that words/language create reality, using language that is acknowledging and inclusive of all people who identify across a wide gender spectrum is an issue of power, politics, respect and visibility.
